Very Good. It actually felt good being able to see my GP face-to-face Couldn't have done any better.

very good

my appointment was very good the Dr covered all the ground and was very friendly would like to see her more often

more like the nurse I saw

VERY GOOD

Service was very good. a) The appointment happened on time in line with the time slot. b) All persons interacted with at the Practice were pleasant and courteous. c) The nurse I saw made sure I understood the need for the test and what possible outcomes there could be. She informed me of when the test results would likely be back. She made me feel comfortable and performed the test effectively. She also affirmed I had understood what happens next.
